

IDT EXPO

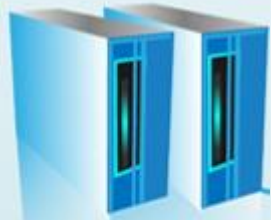

TAKING RISK TO THE EDGE

Mark Ogden
Sr. Business Intelligence Strategist
Dynamic Risk Assessment Systems, Inc.

 Dynamic Risk

The Past – System Silos

The Present – Centralized Systems and Data

Benefit: Integrated Analytics

Current Challenges – Data Latency

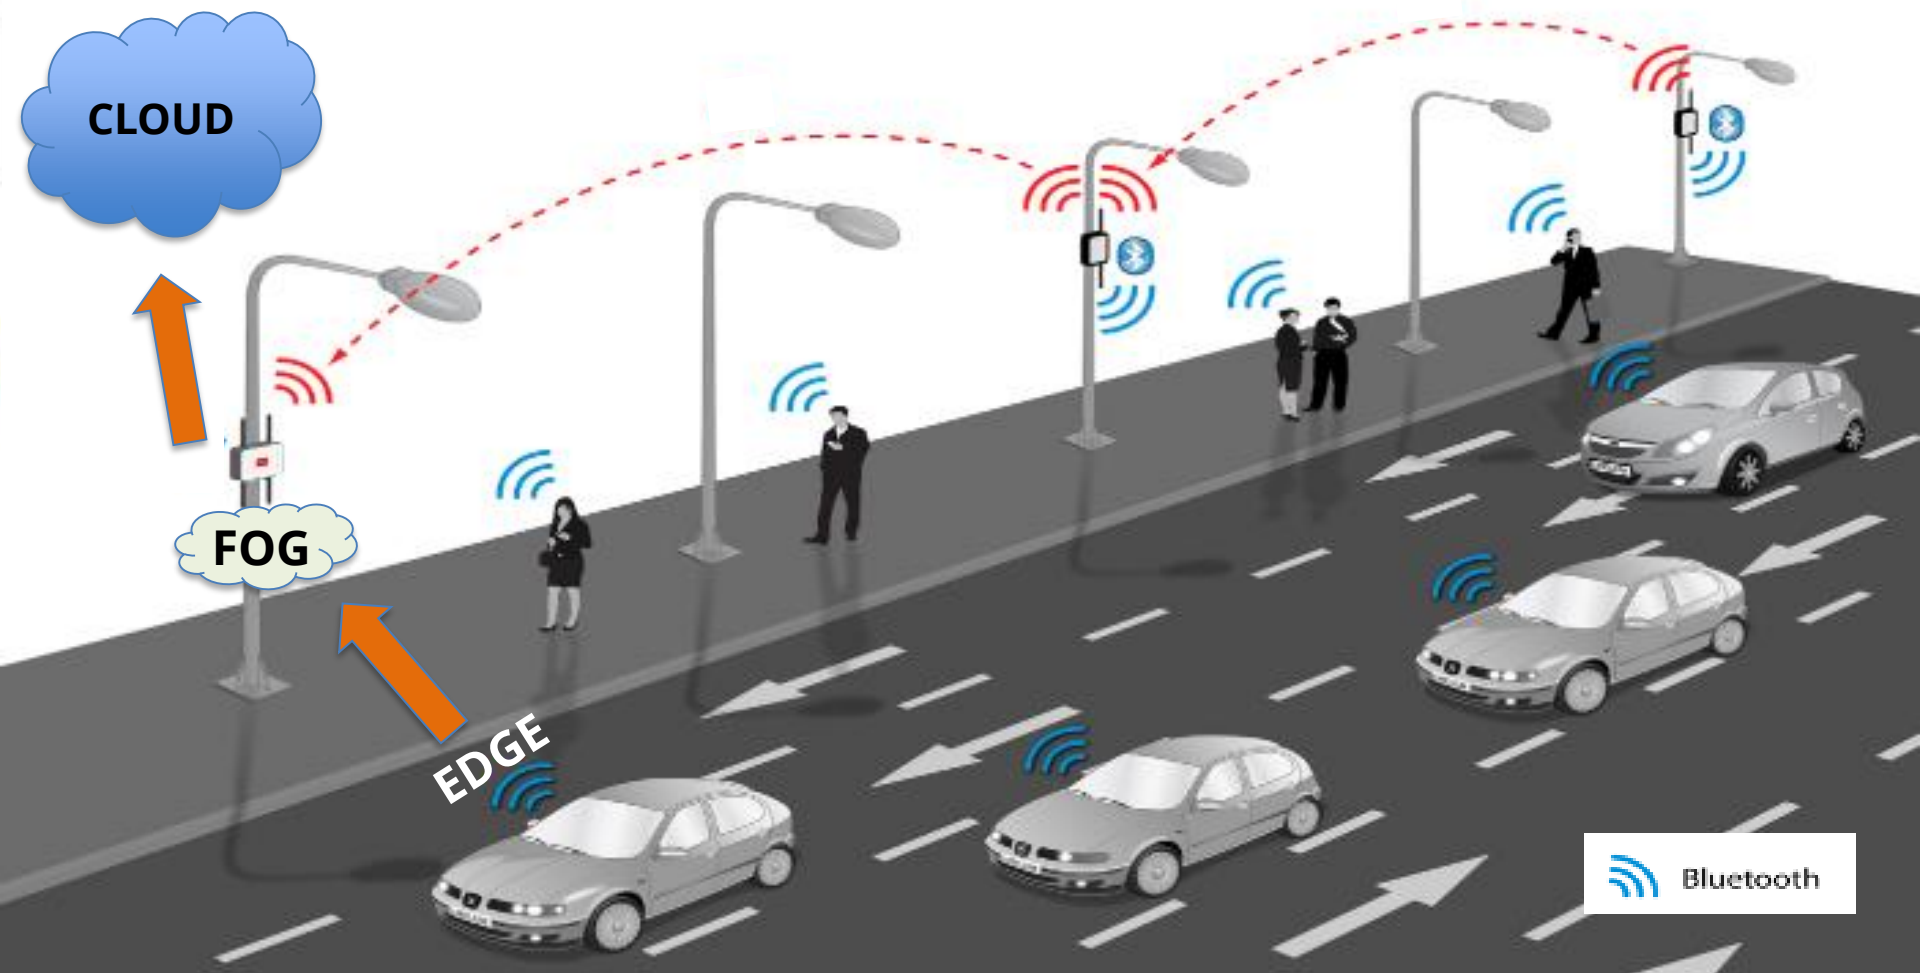

Eliminating Data Latency is Critical to Real-Time Assessments

The Edge

Where the “Physical” world meets the “Digital” world

Hype Cycle For Emerging Technologies 2017

Emerging Technology Implementation

Phased Approach

- **Partner with technology**
- **Start small, be agile, and experiment**
- **Learn from mistakes**
- **Implement iteratively**

**What does
“Taking Risk
to the Edge”
mean?**

What Does Good Look Like in 10 Years?

Thank you.
